HTC Thunderbolt Rear Panel Replacement

Written By: Brandon Younger

INTRODUCTION

Use this guide to replace a worn out or damaged rear panel on the HTC Thunderbolt.

TOOLS:

- iFixit Opening Tools (1)

Step 1 — Rear Panel

- Insert the plastic opening tool into the top of the Thunderbolt near the power button.
- Gently pry up on the rear panel around the edges until it is loose.

Step 2

- Lift and remove the rear panel.

To reassemble your device, follow these instructions in reverse order.
